Planning

Subject:

DC/25/2057 Land North of Little Slaughterford

Dear team,

I hope this email finds you well.

[REDACTED], my address is 64 Rowan Way, Rottingdean, Brighton.

I am a Member of the Public and my stance on this planning application is to object.

This is a valued rural amenity which also has important ancient woodland, this is rich in biodiversity and also plays a crucial role in helping prevent flooding. The proposed development will only add to the flooding issues and will also add pressure to the existing infrastructure.

There is also the issue of increased traffic and parking in an already busy location and this could increase the risk of children being injured.

Thank you for your time and consideration. Kind regards

[REDACTED]
