

Taylor's, The Street, Slinfold, RH13 0RX

T1 - The tree subject to the proposed works is a willow located within a Conservation Area. The specified works are to re-pollard the willow back to its previous pollard points for routine maintenance purposes. The works will be carried out across the entire crown of the tree. The willow is currently approximately 12 metres in height and, once the re-pollarding works are completed, it will be reduced to an estimated height of 8 metres.
