Planning Statement

Broadbridge Park, Chantry Court, Broadbridge Heath, RH12 3XY

September 2024

The home was opened in 2020 and registered for 70 bedrooms to provide residential and nursing care.

When the home opened the client provided a relative's room in the event family members wished to stay over, however since opening the room has never been used and it has subsequently remained empty.

Under CQC guidelines the client can only register beds that have planning permission, subsequently to convert the relative's room into an additional resident's bedroom we require planning permission.

We confirm there are no additional staff requirements, no changes to the building elevations or room layout. The only change will be a number on the door and furniture.
