Sophie Moore
Horsham District Council
Parkside
Horsham
West Sussex
RH12 1RL

By email only: Planning Department, planning@horsham.gov.uk

Thank you for requesting advice on this discharge of condition from Place Services' ecological advice service. This service provides advice to planning officers to inform Horsham District Council planning decisions with regard to potential ecological impacts from development.

Application:	DISC/26/0061
Location:	Old Clayton Boarding Kennels Storrington Road Washington Pulborough
Proposal:	"Approval of details reserved by condition(s) 18, 19, 24 and 27 to approved application DC/23/0701."

Thank you for re-consulting Place Services on the above discharge of condition application. We can only comment on conditions related to ecology.

Conditions

Condition 18: Recommend discharge

Pre-Commencement (Slab Level) Condition: No development above ground level shall take place until a scheme of soft landscaping for the site has been submitted to and approved in writing by the Local Planning Authority. The soft landscaping details shall include planting plans; written specifications (including cultivation and other operations associated with plant and grass establishment); schedules of plants noting species, plant sizes and proposed numbers/ densities. The approved scheme of soft landscaping works shall be implemented not later than the first planting season following commencement of the development (or

within such extended period as may first be agreed in writing with the Local Planning Authority). Any planting removed, dying or becoming seriously damaged or diseased within five years of planting shall be replaced within the first available planting season thereafter with planting of similar size and species unless the Local Planning Authority gives written consent for any variation.

Reason: To ensure a satisfactory development that is sympathetic to the landscape character of the countryside and built form of the surroundings within the setting of the South Downs National Park, and in the interests of visual amenity in accordance with Policy 33 of the Horsham District Planning Framework (2015) and Policies 14 and 15 of Storrington and Sullington and Washington Neighbourhood Plan (2019).

Condition 27: **Recommend discharge**

Pre-Occupation Condition: No development shall commence until a lighting design scheme for biodiversity has been submitted to and approved in writing by the local planning authority. The scheme shall identify those features on site that are particularly sensitive for bats and that are likely to cause disturbance along important routes used for foraging; and show how and where external lighting will be installed (through the provision of appropriate lighting contour plans, Isolux drawings and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent bats using their territory. All external lighting shall be installed in accordance with the specifications and locations set out in the scheme and maintained thereafter in accordance with the scheme. Under no circumstances should any other external lighting be installed without prior consent from the local planning authority.

Reason: As these matters are fundamental to safeguard the ecology and biodiversity of the area in accordance with Policy 31 of the Horsham District Planning Framework (2015), and to enhance Protected and Priority Species/habitats and allow the LPA to discharge its duties under the s40 of the NERC Act 2006 (Priority habitats & species) and Policies 14 and 15 of Storrington and Sullington and Washington Neighbourhood Plan (2019).

Comments

We have reviewed the further information relating to the lighting plans and the landscaping proposals which has been submitted in order to discharge Condition 18 and 27.

We are now satisfied that the submitted information includes the detail required by these conditions. We note we can only comment on Condition 18 from an ecological perspective and a landscaping consultant should also be consulted on this application.

Recommendation

Subject to implementation in full of the submitted details, we recommend discharge of Conditions 18 and 27.

Please contact us if you have any queries in relation to this advice.

Hayley Dean MCIEEM MSc BSc (Hons)

Senior Ecological Consultant

Place Services at Essex County Council

Place Services provide ecological advice on behalf of Horsham District Council.

Please note:

This letter is advisory and should only be considered as the opinion formed by specialist staff in relation to this particular matter.

We are unable to respond directly to applicants/agents or other interested parties. Any additional information, queries or comments on this advice that the applicant/agent or other interested parties may have, must be directed to the Planning Officer at the relevant LPA, who will seek further advice from us where appropriate.
