Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Other - Overdevelopment
Comments:	The scale of this mast is totally out of proportion with the location, unsightly having no background (trees etc) to blend with, and will

have a significant impact on the neighbourhood character.

The cabinets will obstruct vision for road traffic at the nearby junction.

There is another mast not 200m away, can they not be consolidated.

Application dc/23/1126 for a 15m mast on Jackdaw Lane, that would have had backdrop due to trees in the area to blend with was reject on impact, this application is more extreme at 20m located next to a public traffic area and also high location in the area.

Kind regards
