Comments:

I am objecting to the Berkeley Homes proposal to build 1,000 homes northwest of Southwater. Neighbourhood planning exists to give communities a genuine say over where and how their village grows. Southwater residents invested significant time and effort in creating a plan that was put to a referendum and passed in June 2021. That is the strongest form of community consent available under the planning system. Housing planners may state that the plan is "out of date" being 5 years old but an online petition against this proposal has already attracted over 3000 signatories so the community sentiment back in 2021 is still current. In December 2025, Southwater Parish Council held an extraordinary meeting and voted to begin a full review of the Neighbourhood Plan - in part because of the pressure being applied by this very proposal. That review is now underway and represents the proper democratic process for deciding Southwater's future. If Berkeley Homes is permitted to build 1,000 homes before that review is complete, the Neighbourhood Plan's housing limit is rendered completely pointless. It would send a clear message to every community in England that spending years producing a Neighbourhood Plan means nothing if a large developer simply lobbies hard enough. No material planning evidence has been put forward by Berkeley Homes or Horsham District Council to justify why the community's own plan should be overridden and clearly does not satisfy the social and housing needs of the local community. I ask that the Berkeley Homes 1,000-home proposal be refused, or at minimum deferred until the Southwater Neighbourhood Plan review is complete, so that the community's democratic voice is properly respected.

Kind regards
