Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Other
Comments:	I am objecting to the proposal to instal solar panels to the south elevation of the roof of 3 Gatewycke Terrace as we are part of a conservation area and the panels, if installed, will be clearly visable from the front of the house. Number 3 Gatewycke is located next to number 4 and 5, and both of these buildings are buildings of special interest. As such, having solar panels on the roof at the front of number 3 would be detrimental to this. However, if the solar panels were placed on the back roof so that

they are not visable from the front of the house it would not be a problem and we would not object.

Kind regards
