Subject: Re: Greenway Academy S73 Application (DC/26/1048) – Copy of Formal Representations

Hi Sam - and thanks for your note.

Regarding a request to call this to committee. I confirm that I would like to make this request on the basis that this development process has caused considerable anxiety to a number of residents along Merryfield Drive. I believe it would be useful to demonstrate, through open discussion, the additional impacts of the lengthening of building along the N/S axis and the addition of the chimney to the roof of the school - these are the remaining significant changes to the 2023 approved plan.

It may also be an opportunity to ensure through a condition, the optimum plan for screening of the new build from those properties on Merryfield Drive

Best Regards

Tony
