Comments summary

Dear Sir/Madam,

Planning Application comments have been made. A summary of the comments is provided below.

Comments were submitted at 16/03/2026 10:36 AM.

Application Summary

Address: Land North West of Southwater

Proposal: Outline planning application, with all matters reserved (except for primary access to the highway) for a phased development comprising: the demolition of existing buildings and the construction of residential dwellings (including affordable housing) (Use Classes C2 and C3); a mixed-use neighbourhood centre (Use Classes E and F); education facilities (Use Class F1(a)); business and employment floorspace (Use Classes B2, B8 and E(g)); redevelopment of existing agricultural buildings including construction of a building for community use (Use Classes E and F2); improvements to public rights of way; sports pitches; gypsy and traveller pitches/plots; public open space; landscaping, and associated infrastructure.

Case Officer: Matthew Porter

Reasons for comment: - Overdevelopment

Comments:

The recent mass development has shown that there is not enough infrastructure for that development let alone at least another 1000 house.

thats why I am objecting to the Berkeley Homes proposal to build 1,000 homes northwest of Southwater

because no proper assessment has been made of the combined impact of all the growth

Southwater is already absorbing.

Southwater is not starting from zero. Approximately 350 homes are already under construction at

Broadacres. Around 800 more have planning permission at the Horsham Golf Club site. That is

already around 1,150 new homes committed before Berkeley Homes has built a single house.

Adding 1,000 more brings the total to over 2,150 new homes -

more than doubling the number of

households in a village whose roads, schools, doctors' surgeries

and sewage system were not built

to cope with growth at this scale.

No one has carried out an assessment of what all this growth means for Southwater's

infrastructure together. Berkeley Homes has assessed only its own proposal in isolation - ignoring

the 1,150 homes already in the pipeline. That approach is not good enough.

The timescale of this development compounds the problem further. At Berkeley Homes' known

build-out rate of 50-60 homes per year, and with a further

estimated 200 units yet to be built

elsewhere, construction on this site would extend over 20 years. A

planning authority is only legally

obliged to demonstrate a five-year housing land supply - yet

approving this application would

effectively hand a single developer a 20-year land supply in this

location. Locking up this land for

two decades since one developer's build-out capacity is not a

sound or proportionate use of the

planning system.

When Berkeley Homes applied for 1,500 homes on this same site in 2022, Horsham planning

officers concluded the cumulative infrastructure impact was one of the key reasons the application

was unacceptable. That application was withdrawn in February

2023. The infrastructure position

has got worse since then, not better - yet Berkeley Homes is now

asking for 1,000 homes with no

better evidence.

I ask that the Berkeley Homes 1,000-home proposal be refused until a full, independent

cumulative infrastructure assessment covering all committed and proposed Southwater

development has been completed and published.

Kind regards
