Morning Jacques

Yes I have reviewed the information provided by the applicant.

. Generally I'm happy with the ground contamination reports. However the covering letter states with reapect to asbestos that:

" All ACMs will be removed by a licensed asbestos contractor prior to general demolition works and in full compliance with the Control of Asbestos Regulations 2012. Where notifiable to the Health and Safety Executive, notifications will be made in the required timeframe. The removal methodology will be included within the Construction Management arrangements."

I would therefore recommended that condition 5 (d) is not discharged until copies of the waste consignments notes for the asbestos containing materials are provided.

Regards

Lee

Hi Jacques

Apologies this is with me.
I was going not do it this week but have been overtaken by other events.

I will respond to you by end of next week.
