Comments Details

Commenter Type: Neighbour

Stance: Customer made comments neither objecting to or supporting the Planning Application

Reasons for comment: - Trees and Landscaping

Comments: It is noted that the tree survey report was carried out in October 25 with recommendations that several trees were dealt with as high priority and within one month, yet planning application was only submitted in April 26.

A significant number of trees are located, not within the carpark, but at the rear of Sainsbury's, a nature area with seating benches where people can relax in a quiet location, near to the garden of remembrance, and enjoy the outdoor space.

Whilst there are no objections to works being carried out, this should be done at a time when wildlife is not subject to potential disruption, i.e. not during nesting seasons for both birds and squirrels. Any tree saplings should also be protected and allowed to develop and not removed by stump grinding. This application should be considered within the remits of the Wilder Horsham District initiative aims to enhance wildlife habitats and protect species across the Horsham District.

Kind regards
