Subject: RE: Planning Application Consultation - DISC/26/0269 newplace nurseries pulborough

Hi Alice

I have reviewed the Noise Assessment report prepared by Logika Group dated 12th August 2036.

The report has used historic noise monitoring results from surveys undertaken in 2016 and 2022 to inform computer noise modelling of the noise exposure of future occupiers of the developer. The use of historic data is not normally accepted. However, in this case the main contributor to the noise climate is the railway noise and this has not altered to any material degree within the last 5 years.

The conclusions of the report are therefore satisfactory and condition 10 to approved application DC/21/2321 can be discharged.

Regards

Lee
