Stephanie Bryant
Horsham District Council
Parkside
Horsham
West Sussex
RH12 1RL

By email only:

Thank you for requesting advice on this discharge of condition from Place Services' ecological advice service. This service provides advice to planning officers to inform Horsham District Council planning decisions with regard to potential ecological impacts from development.

Application:	DISC/26/0247
Location:	Mowbray Phase 2 Old Holbrook Horsham West Sussex
Proposal:	"Application for Approval of Details Reserved by Condition 14 (as amended by DC/19/0984) to approved application DC/16/1677"

Thank you for consulting Place Services on the above discharge of condition application. We can only comment on conditions related to ecology.

Condition

Condition 14: Further Information Required

Pre-Commencement Condition: Prior to the submission of an Ecological Mitigation and Management Plan (EMMP) with an application seeking approval of Reserved Matters pursuant to the planning permission, up to date ecological surveys shall be carried out to provide up to date information regarding the potential of the area covered by the Reserved Matters application to support protected and notable species and inform the future design of measures that will be required to avoid, mitigate or compensate for impacts and to inform the

Ecological Mitigation and Management Plan for that Reserved Matters application. These surveys shall be completed by suitably qualified ecologist(s), recognised by a relevant professional body such as CIEEM, and in accordance with current survey guidelines. The scope of these surveys shall be agreed in advance with the LPA, and may include advanced surveys for rare bat species. The surveys shall be completed in accordance with the agreed scope prior to the submission of the EMMP for that Reserved Matters area and the results and associated reports appended to the Ecological Mitigation and Management Plan for that Reserved Matters area.

Reason: As this matter is fundamental to safeguard and enhance the ecology and biodiversity of the area in accordance with Policy SD6 and Policy 31 of the Horsham District Planning Framework (2015), the Wildlife and Countryside Act 1981 (as amended), Conservation of Habitats and Species Regulations 2010 (as amended), The Badger Act 1992, NERC Act 2006 and the NPPF.

Comments

These comments relate to Phase 2 of the development only. We have reviewed the Ecology Survey Scoping Report (CSA, June 2026) which has been submitted in order to discharge Conditions 14.

We are not satisfied that the submitted information includes the detail required by this condition. The document submitted is a scoping report, which highlights what further surveys are required to inform the mitigation strategy. However, Condition 14 requires the results of the updated ecological surveys (bats, birds, Badger, reptiles) to inform the Ecological Mitigation and Management Plan (EMMP). As such, the results of the surveys need to be provided at this stage. As such, we are not satisfied there is sufficient information to recommend discharge of these conditions.

Recommendation

We are unable to recommend the discharge of condition 14 until the additional information outlined above has been provided.

Please do not hesitate to contact us if you have any queries in relation to this advice.

Yours sincerely,

Hayley Dean MCIEEM MSc BSc (Hons)

Senior Ecological Consultant
