Hi Matthew,

I have reviewed the Air Quality Technical Response dated 1 May 2026 and thank WSP for their submission.

I am satisfied with the revised damage cost calculations and confirm that mitigation can be secured through the previously recommended condition. It should be noted that the final damage cost figure is [REDACTED]

I also thank the applicant for the clarification provided in respect of the outstanding matters and am satisfied with the justifications presented. On this basis, Environmental Health has no further comments in relation to the Air Quality Assessment.

Many thanks

Georgina Hermitage
