Description of Proposed Works

Please describe the proposed works

The proposed works comprise the construction of a double-storey side extension built within the same footprint as the existing side extension, with new accommodation formed at first-floor level above. The existing conservatory is to be removed to allow for a more cohesive and functional layout.

In addition, alterations are proposed to the existing porch and garage, including the introduction of a pitched roof to better integrate the new and existing elements of the property and create a more balanced overall appearance.

The primary aim of the development is to create a larger and more practical living environment while ensuring the extension remains sympathetic to the character and appearance of the surrounding street scene. The proposal has been designed to reflect the size, scale, and form of neighbouring properties, many of which have already been extended with similar double-storey side additions, helping the development sit naturally within its context.
