Subject: DC-26-0322 - Steyning Grammar School, Upper School

Hi Matthew,

The Trees team have been re-consulted on the proposed alterations to pitch configurations in respect of the Grammar school proposals. Bearing in mind the TPO status of the surrounding tree belts, please can you request an Arboricultural Impact Assessment that details all pitch/tree proximity issues and how the levels and run-off/future usage will be dealt with to minimise impacts upon trees. This will require additional individual tree survey and assessment in areas of direct and potential indirect maintenance/future usage issues.

Thanks and regards

Andy

Andrew Clout
Assistant Arboricultural Officer (Tues and Weds only)
