Subject: Application DC/19/2464 - Attention of Matthew Porter

Dear Sir

I am writing as someone who commented on the above application which is now to be determined on Monday 9 March under delegated powers.

Previously a committee date was noted on the planning portal and I had been advised that in all likelihood this application would be a committee decision.

I would like to ask why this is not being taken to Committee when so many representations were made by local residents (eleven separate households: more individuals) plus relevant organisations. As it is a major development I am disappointed that Council tax payers will not now have the opportunity to voice their concerns.

I trust that Officers' decision will reflect the views of the many letters of representation.

Regards
