The proposed changes

Minor fenestration changes are proposed on the ground floor. These include:

1. Re-positioning of garage door to end bay from east side elevation to south front elevation.

2. Provision of personnel door and side window to the east side elevation.

3. Provision of a single window on the north (rear) elevation.

These are very minor fenestration changes which do not alter the siting or external dimensions of the building. They do not impact on its character or appearance and can therefore be treated as a non-material minor amendment to the planning permission ref. DC/24/0420.
