

Design & Access Statement

This scheme has been proposed as there are some minor internal redecoration works being undertaken and the existing signs, due to their condition/age, do not support the development.

Sign A is a new double-sided pictorial fixed to the existing ornate bracket with new linolites to illuminate and a new drop panel with the housename. This will replace the existing pictorial in the same location, with a new drop panel to display the house name. As this is a like-for-like replacement in terms of size and location we would anticipate no issue with Sign A.

Sign B is to clean and relamp the existing lantern at the end of the ornate bracket. This will be done in situ. As this is not changing the lanterning only cleaning it and relamping it, we would anticipate no issue with Sign B.

Overall, we have designed a new signage scheme based on the style and locations of the existing signage. The new decorations will enhance the appearance of the pub and the signs themselves will replicate the impact of the existing signs.
