Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Privacy Light and Noise
Comments:	I wish to raise an objection to the current proposals as the approved and current plans and elevations do not appear to show the works currently being implemented on site. The ground works giving access to the lower level are not as the approved plans show, and neither is the design of the enclosure to the upper level.

In particular the steel posts around the enclosure are far higher than shown and far higher than necessary to create a safe barrier. The posts themselves are an unsightly alteration and if, as I assume they are to be used for lighting, will significantly detract from the setting of this lovely river walk. Unless I have made any factual errors regarding the approved proposals, the current works being undertaken should be inspected on site and altered to ensure the scheme compliments and enhances this sensitive site and it's surroundings.

Kind regards
