Subject: DISC/25/0384 - Land North of Glebe Farm and Kings Barn Lane

Dear Sophie,

Environmental Health have reviewed the Merebrook Consulting Geoenvironmental Assessment, dated March 2026, and we have the following comments to make.

1. It would appear that the only amendment to the pervious report is a section titled 'Made Ground' (section 16.2) and whilst some detail on the MMP and further stockpile testing of site won soils is welcomed unfortunately it doesn't address our previous comments.
2. Given the above we ask that a detailed response to our comments dated 04.03.26 is provided.

Matthew – copying you in as mindful that Sophie is on leave until 25th March and I believe they are keen to get this addressed. Could you forward to the applicant/agent?

Kind regards

Kevin
