Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Other
Comments:	I wish to object to the above planning application on ecological grounds and the need for a full wildlife survey to be completed before any decisions are made. I regularly walk these peaceful woodland paths, (north of proposed development), for wellbeing and relaxation. It's a great place to listen to the nightingales in the early spring and summer.

Nightingales are a red listed and rapidly declining species that thrive in quiet edge of woodland scrub areas. A development so close would cause immense disturbance to them, due to an increase in footfall, dogs, cats, noise and lighting. We would likely lose them from the area.

Currently this is a functioning and thriving wildlife habitat capable of supporting other rare species as well such as bats, dormice and crested newts. The ecological value of this area should be properly established and any potential damage to the richly biodiverse environment fully evaluated.

Kind regards
