Comments Details

Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	It's clear that we need to invest in STEM and technology teaching spaces if we are to make our education fit for purpose for the challenges children face. The design proposed is thoughtful with quality building and landscaping, it is also getting rid of the current portacabins. I'm supportive of the proposed development.

Kind regards
