Subject: DC-26-1331 - 18 Greenfields Way, Horsham

Hi Meg,

The Trees team have been consulted on the above retrospective application for a boundary wall adjacent to 1 Amberley Road.

I can confirm having visited site this week that there are no trees of significant public amenity value affected by the excavations for foundations that have been implemented.

Some small ornamental/domestic scale trees are located relatively close to the boundary, the largest of which (a variegated maple) is maintained in a topiarised form by regular pruning. These trees do not form constraints on the development of the property.

Hence no arboricultural concerns.

Regards

Andy
