Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Overdevelopment - Trees and Landscaping
Comments:	We moved to Barns Green 10 years ago to live in a village environment and to get away from traffic, only to find this could be obliterated by yet another building of a misplaced misguided development opposite our essential village shop and much loved

pub. The hedgerow opposite the afore mentioned, is an important habitat for wildlife and the removal of this would be frankly wilful destruction. Also the road in front of the shop and pub is already a very congested area with people continually pulling in to park there and the planned access to the proposed development would only add to that congestion and be dangerous to passing cars. This shop is a lifeline to the many elderly people living here especially as our bus service is practically non existent so should it be forced to shut because you daren't park there, it would be a massive loss. The proposed development would see a massive loss of trees and our areas of conservation which again would be unacceptable at a time we are being told to think green and worry about global warming! Also we experience serious flooding around Barns Green and often have streams running down the hill into the village and surrounding areas. Our English villages are a much loved asset to our country, do not destroy yet another one to reach Government targets!!

Kind regards
