Reasons for comment:	- Other
Comments:	Ladies and gentlemen of the planning committee. Please read this in conjunction with my previous objection. I mentioned several errors in supporting documentation and today I've seen a supporting submission from the West Sussex

Highways stating that Barns Green enjoys an hourly No9 bus service. This is also incorrect. There is no hourly bus service, and the No9 runs from Angmering to Shoreham, about twenty miles away and completely irrelevant to Barns Green.

The number of cars and therefore parking spaces required where the bus service is inadequate will be higher than the model used. The recent Ashmiles development has barely adequate parking and neighbours are having disputes about parking and obstructions. The unfinished Sumners Field development is slow to sell so we're not seeing the full effect of additional traffic from there.

The committee simply cannot take any supporting documentation at face value, the number of errors a layman like myself can makes me wonder how many more there are.

Kind regards
