| Stance:              | Customer objects to the Planning Application                                                                                                                                                                                                                                                                                                                                                |
| Reasons for comment: | <ul style="list-style-type: none"><li>- Design</li><li>- Other</li><li>- Overdevelopment</li><li>- Trees and Landscaping</li></ul>                                                                                                                                                                                                                                                          |
| Comments:            | <p>My objections are as follows:</p> <ol style="list-style-type: none"><li>1. The wall would not protect his property.</li><li>2. The wall would not protect his property from trespassers</li><li>3. The brick is NOT the same brick. The 1 Amberley Road brick wall is an LBC (now owned by Forterra) Tudor brick and no. 18 Greenfields Way brick is an FLB Multi 1st Quality.</li></ol> |

4. There are two trees nearby which could potentially fall over in a very strong wind and damage the wall and the next-door neighbour's property. As it happens a very strong South West wind (the predominant wind direction in this area) has happened anytime. We lost a willow tree years ago which fell right across the road.

5. If the neighbours in No. 1 Amberley Road ever moved that 2m high wall would be then a real eyesore and be completely out of place to a new owner compared with all the other frontages nearby including mine. It was the original intention by Federated Homes, the original estate developers and builders, to have open frontages.

6. I do thoroughly object to that wall above 1 metre high. In addition the present piers should be removed and capped off at 1m.

---

Kind regards
