Address: Cemmaes Meadow London Road Ashington

Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Design
Comments:	The single storey extension at the rear cannot be seen by any neighbours, and is similar size to the conservatory it replaces, which I believe leaked badly so needed to come down. I believe there is a small storage cupboard that has been built on the flat roof at the front of the property that is in keeping with the rest of the property and affecting nobody. There is now balustrade around the upstairs decking. I can see these improvements from my house - All improvements look in

keeping with existing and affect and overlook no-one, so I fully support these improvements.

Kind regards
