Willow Tree Care - Tree Report

Date of Visit: 23.9.2024

Site Reference: Doves Place Coxham Lane, Steyning, BN44 3LG

Dan Shorter visited the site on 23rd September 2024 to assess a beech tree on the property which is under a protection order.

T1 Beech tree is positioned in the rear garden of the property. Upon inspection, fruiting bodies of Meripilus giganteus were observed, along with clear evidence of root rot. The affected roots exhibit significant decay, detaching easily upon handling. Given the tree's location between a residential building and a pedestrian pathway, it is classified as a high-target tree, necessitating urgent attention.

Yours faithfully

Dan Shorter
