Subject: RE: DISC/25/0390 The Old Piggery Fryern Road Storrington EH response

Hi Bethan

Thanks for the consultation request

The Preliminary Contamination Risk Assessment prepared by EAS Limited has recommend that intrusive investigations are undertaken at the to fully characterise the potential risk to future occupiers. In addition the Asbestos survey has confirmed the presence of asbestos containing materials, including fragments of asbestos roofing. Due to the conditions of this material asbestos free fibre may be present in site soils.

The information provided is sufficient to discharge part a) only of Condition1 to approved application DC/25/0434.

Regards

lee
