Condition(s) - Variation/Removal

Please state why you wish the condition(s) to be removed or changed

The condition is requested to be varied because the approved loft conversion works require compliance with current Building Regulations. These regulations require the use of a mechanically fixed (dry-ridge) system when altering or reconstructing a roof structure. A traditional mortar-bedded (wet) ridge would not comply with Building Regulations and therefore cannot be used. The proposed dry-ridge system will use ridge tiles that match the existing roof in colour, profile, and finish as closely as possible, but it will be hard to exactly match the dragon tooth style ridge that was originally on the roof.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

Condition 3 is proposed to be varied to allow the use of a mechanically fixed (dry-ridge) system where required to comply with current Building Regulations, while ensuring that ridge tiles match the existing roof in colour, profile, size and finish as closely as possible.
