Comments:	Further to [REDACTED] submission regarding the collection of waste management. I suggest that the scenario proposed is impractical, unless some changes are made. Every other Monday, 3 bins per house are collected, ie 27 bins for the 9 houses, I suggest insufficient space is planned. Maybe he may wish to revise the plans? I do wonder how practical this suggestion actually is, what contingencies exist. What is this "management company" referred to? Will there be a legal basis for this in perpetuity?

Kind regards
