Many thanks for your email

You are correct, I'm missed that from my application

For the leylandii conifer hedge I hoped to reduce it by about 8 feet and tidy it up on both sides

It will still be circa 14 to 16 feet high post this work

I do want to retain this hedge

On the pine tree with the electrical cable, I assumed that I wouldn't be able to remove it

Could you confirm if it is possible to remove , that would be my preferred option otherwise the tree will keep growing through the electrical cable

[REDACTED]

Obviously subject to permissions from yourselves I would then need to liaise with UKPN to make safe

Many thanks
Phil
