Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Overdevelopment - Privacy Light and Noise - Trees and Landscaping
Comments:	This is over development of the site. The hedge and trees that are being planted on the southern boundary of the site and are north of the houses on Henfield Common North will take away natural light from Henfield common north properties. Property 9 is also far too close to Trinity Cottage and the other attached property and

looks like it has been squeezed in as does not leave a green open space area and is far too close to these properties taking away light and privacy. Now of the other plots are being built this close to existing houses. The access to this field is also not great and no consideration is being taken for the roots of the big oak tree. The redesign does not change anything. This development should not be allowed to happen especially plot 9 which is an attempt of the developer to disregard leaving a green space between existing and new development properties.

Kind regards
