## Comments Details

| | |
|---|---|
| Commenter Type: | Neighbour |
| Stance: | Customer made comments neither objecting to or supporting the Planning Application |
| Reasons for comment: | - Design |
| Comments: | Whilst we are generally in support of the loft conversation the dormer to the front of the property will change the look of all the other properties nearby and to how the road looks.<br><br>As these properties are only 12 years old and were designed with a theme in mind it is changing that quite a lot.<br><br>The neighbour at number 12 has recently had a loft conversion with velux to the sides and dormer to the rear and this looks fine. |

Also the plans do not match up. The front elevation just shows a dormer and the 2nd floor plan shows the dormer and 2 front velux. Which plan is correct as if it is a dormer and 2 velux that is changing the roof line to the front quite a lot?

---

Kind regards
