

Formation Level in Plot 4

Inspection pit excavated 300mm below formation level to evidence natural clay in Plot 4

Small reduction in formation level depth on Plot 4 by 50mm whilst onsite

Formation Level in Plot 5

Formation Level in Plot 5

Inspection pit excavated 350mm into the formation level

Tape measure showing reduction in formation level by 350mm

Formation Level in Plot 6

Inspection Pit in Plot 6

Tape measure showing reduction in formation level by 300mm

View of formation level of Plot 7

View of formation level of Plot 7

View of formation level of Plot 7

Pit excavated into formation level of Plot 7

Pit excavated into formation level of Plot 7

Pit excavated into formation level of Plot 7

Depth from finished level to formation level in Plot 7

Depth from finished level to formation level in Plot 7

Formation Level in Plot 8

Formation Level in Plot 8

Inspection pit in formation level in Plot 8

Inspection pit excavated 400mm into formation level in Plot 8

Formation Level in Plot 9

Formation Level in Plot 9

Inspection pit excavated 350mm into formation level in Plot 9

Formation Level in Plot 10

Formation level in Plots 9 and 10

Tape measure showing reduction in formation level 300mm below final level (from drain cover).

Inspection pit excavated 300mm into formation level in Plot 10

Inspection pit excavated into formation level in Plot 10

Formation Level in Plot 11

Formation Level in Plot 11

Formation level in Plot 11. Tape measure indicating reduction from final level of 0.3m

Inspection pit excavated into formation level of Plot 11

Formation Level in Plot 12

Formation Level in Plot 12

Inspection pit excavated 400mm in Plot 12

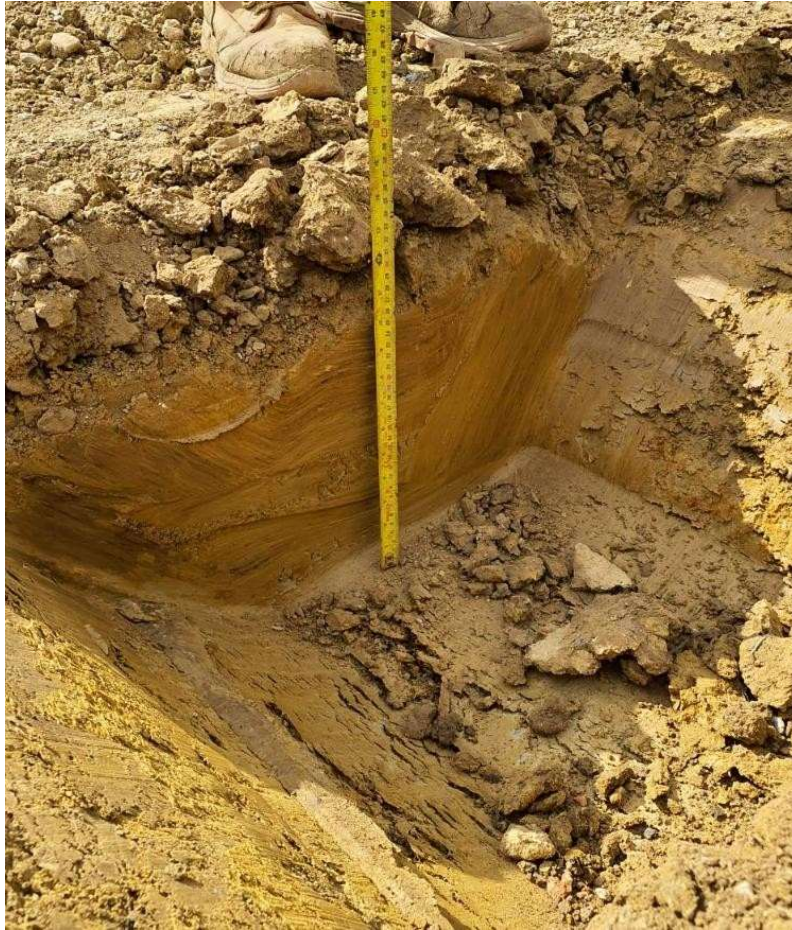

Tape measure showing reduction in formation level 400mm below final level in Plot 12

Formation Level in Plot 13

Formation Level in Plot 13

Inspection pit excavated 400mm into formation level of Plot 13

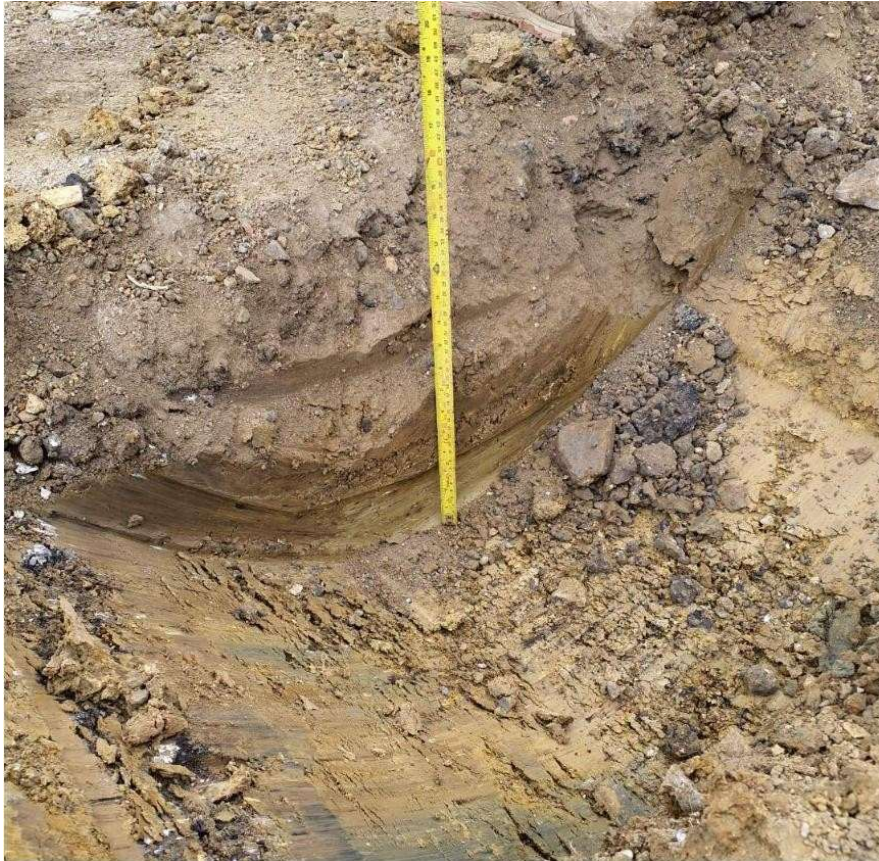

Tape measure showing reduction in formation level 400mm below final level (from patio) in Plot 13

Formation level in Plot 14

Formation Level in Plot 14

Inspection pit excavated 450mm into the formation level, indicating made ground was present in the formation level soils

Inspection pit excavated into the formation level indicating made ground was present in the formation level soils

Clean Cover in Plot 2

Inspection Pit in Plot 2 showing thickness of clean cover

Topsoil Stockpile 03 adjacent to Plot 2

Topsoil Stockpile 04 adjacent to Plot 2

Topsoil Stockpiles 03 and 04 adjacent to Plot 2

Clean Cover in Plot 4

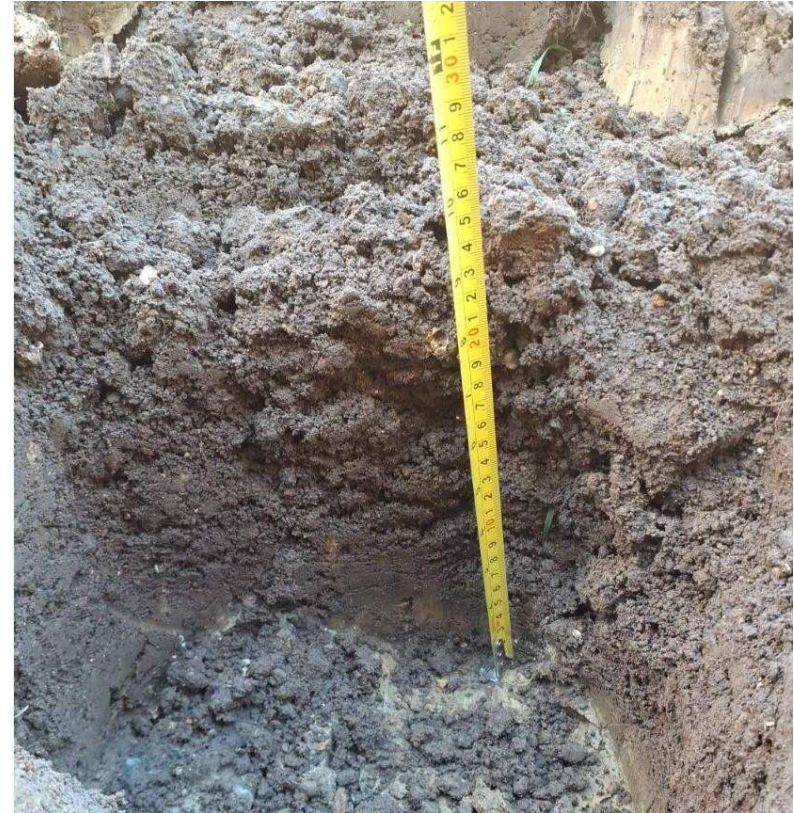

Inspection Pit in Plot 4 showing 400mm of Topsoil and Formation Soils Beneath

Clean Cover in Plot 4

Clean Cover in Plot 5

Inspection Pit in Plot 5 showing 300mm of Topsoil and Formation Soils Beneath
