Good afternoon Sam,

Thank you for consulting us on the above application. I have reviewed the applicant's Ecological Mitigation and Management Plan (Bioscan, 2026) which states that the site is covered by an EPSL and as such a translocation activity for GCN has already taken place. The exclusion fencing is also planned to be maintained throughout the development process. I can therefore confirm that we have no GCN concerns in relation to this reserved matters application.

Best wishes,
