Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Loss of General Amenity - Overdevelopment - Privacy Light and Noise - Trees and Landscaping
Comments:	This will have a hugely negative impact on the residents of Hurst Avenue. It will increase security risks to the houses that back on to the field. It will destroy views across a current green field instead to a car park. It will make an already difficult parking

situation in the avenue even worse as students fight for spaces. Increase pollution, noise light and people. The proposed lighting will be intrusive. The car park running along the boundary of the houses gardens is intrusive. Students will be walking along behind the houses all day. There are no benefits to the residents of Hurst Avenue to this proposal. The college has the boundary with the railway it could utilise for this project which would minimise the impact on residential areas.

Kind regards
