Hi Bethan

I have reviewed the Water Neutrality Report and Water Management Plan dated 10th August 2024.

Generally the report is satisfactory but I would request some additional details and a couple of points clarified:

- the location the RWH harvesting tank shown on a plan
- a schematic drawing of the system.
- The report mentions first flush diversion. Please can they confirm that the loss of first flush water will not be an issue for the supply.
- Also please can they confirm that the dishwasher and washing machine will be supplied with potable water as these uses both come within the definition of water for sanitary purposes

Regards

Lee
