Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I fully support this application to install children's play equipment. It will provide a much-needed community facility for local children and families, particularly given the lack of suitable alternatives in the area.

A local playpark will give children a valuable opportunity to play outdoors, stay active and develop social skills. It will also provide a place for parents and carers to meet, helping to strengthen community connections and reduce isolation.

Families should have access to welcoming places to play and spend time together close to home. These proposals will address a clear gap in local provision and make a positive, lasting contribution to the community. I strongly encourage the council to approve the application.

Kind regards
