CORNER OF HAGLANDS LANE / NIGHTINGALES, WEST CHITLINGTON – Full application for re-use shop containers.

Dear Sir/Madam,

SUEZ Advanced Solutions are submitting an application for Prior Approval of a development for electronic communications network to Horsham District Council, Albery House, Springfield Road, Horsham, RH12 2GB. We are applying to Horsham District Council for a determination as to whether the prior approval of the authority will be required as to the siting and appearance of the development.

As West Sussex County Council are the owners of the site, I am writing to you as formal notification of the application having been made. The proposed development is on the corner of Haglands Lane / Nightingales, West Chitlington (grid ref: 50.945561, -0.456454).

The application made under sub-paragraph (4) and in accordance with sub-paragraph (5) of paragraph A.3 of Part 16 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended.

The proposed development includes the siting of a 13m steel telegraph pole, erected with a whip antenna and modem along with a small green equipment cabinet that will measure 660mm X 1130mm X 305mm. The infrastructure is required to support the operation of Southern Water's smart metering network, enabling communication between installed smart water meters and the wider network.

The application is available for public inspection at the offices of the Horsham District Council during usual office hours as well as being available to view online. Any person who wishes to make representations about the siting and appearance of the proposed development may do so in writing to Horsham District Council. Representations should be received by the local planning authority, being a date not less than 14 days from the date of the notice. This can be done online via Horsham District Councils website or in writing to their address as listed above.

Should you have any queries or concerns, or if you wish to discuss the proposal, please do not hesitate to contact myself or my colleague Yang, who is the Technical Manager leading this project, at yang.fu@suez.com.

We appreciate your time and assistance in facilitating this important initiative.

Yours sincerely

Hannah Elliott
Assistant Planning Manager
