Since this would be a new mast, please ensure it is treated as a Prior Approval application which should be fully adjudicated as any other planning application under GPDO of the Town and Country Planning Act 1990. According to 'Changes to permitted development rights for electronic communications infrastructure: technical consultation' of 7 March 2022, paragraph 10, new ground based masts: All new masts still require the Prior Approval of the Local Planning Authority, and consideration of community representation. <https://www.gov.uk/government/consultations/changes-to-permitted-development-rights-for-electronic-communications-infrastructure-technical-consultation/outcome/changes-to-permitted-development-rights-for-electronic-communications-infrastructure-government-response-to-the-technical-consultation>

Yours sincerely,
[REDACTED], 18 Bolding House Lane, West End, GU24 9JJ
