Re 20 Hillside Road Storrington RH20 3LZ

Thank you for your letter dated 5th September 2024 informing us of the planning application for the above property opposite our home.

Whilst we do not have any major objections to their proposed alterations and extension we do have two concerns that we would ask you to consider:

1.Planning Condition – The use of the garage/workshop be restricted by a planning condition that it will only be used for the maintenance and repair of their own motor cycles and motor vehicles and prohibit any business use or for the repair and maintenance of other owners.

This will prevent disruption noise and air pollution adversely impacting on the enjoyment of our home in a residential area.

2.The window to the first floor bathroom on the front elevation of the property being in obscured glass. Whilst this is different to the other properties in Hillside Road we will leave it to you as planners to decide if this is appropriate.

We trust you will find the above appropriate and include the planning condition we have suggested.
