Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Other - Overdevelopment
Comments:	No should mean no!! nothing has changed since 2020/2021, the area is still part of the High Weald National Landscape and therefore this application should be rejected immediately. In fact developers should not be given an opportunity to submit revised planning applications on land that has been deemed of high importance to the local area. It will start with a small development and then in a few years time they will come back for more.

Kind regards
