Stance:	Customer objects to the Planning Application
Reasons for comment:	- Trees and Landscaping
Comments:	This development would require the removal of a significant amount of hedgerow from the area where the proposed building would take place. The removal of said hedgerow would result in the displacement of countless wildlife due to the loss of refuge in the form of the flora and fauna located in the hedgerow. This area

of greenery also prevents water runoff, and thus the removal of such would greatly increase the risk of flooding in the area.

Kind regards
