

This aerial site plan for 'Blinks Wood' illustrates a proposed residential development. The plan features a central cluster of numbered plots (1-77) arranged around a central green space. The plots are color-coded: yellow for residential, red for commercial, and blue for public use. The development is bounded by Shipley Road to the east and Foxfield Cottages to the south. Key features include a central green space, a pedestrian access point, a parking area, and a play area. The plan also shows existing trees and landscaping, with labels for 'EXISTING RETAINED TREES' and 'EXISTING PLANTED TREES'. The overall layout is designed to integrate the new development with the surrounding environment.
