Dear Councillors,

I sent you a message via your web site last weekend about the shouting and barking that we are subject to most weekends from the dog training taking place at the end of our garden. Could you let me know if you received this message please.

Our neighbours are anxious to resolve this nuisance as soon as possible too.

We have contacted Doodley Dogs (who run these courses) several times to ask them to stop the shouting and barking. No action.

Doodley Dogs are renting the fields, which are agricultural land, from the owners.

I note from your answerphone message that you are closed until the 6th January
It is the 8th of February now !

Hope you can help as we are at our wits end.

[REDACTED]

I will forward this to our neighbours.
