Categories: Consultations

Hi Jacques,

The Trees team have been consulted on the above development proposal. I am somewhat confused by the extent of tree and hedge removal proposed. The D&A statement refers to the need to remove 94 lin m of hedgerow along the entire length of the access drive and to the rear of the existing agricultural buildings. Has this already been partially approved under separate planning applications or has an offence likely been committed if only the short section shown on the tree plans now remains?

In addition, can you confirm that the 15m buffer to Ancient woodland has been accurately plotted on the submitted plans.

Thanks and regards

Andy
