Tree Report **Date** 25/09/2024

Company Name: Paul Goldring Tree Surgery
Dukes Cottage, School Hill, Storrington, West Sussex RH20 4NB
01903 746480 suegoldring39@googlemail.com

Location of Tree: T2 Sandown and Paddock Rise, Amberley Road, Storrington, West Sussex, RH204JQ.
Ref No: TPO1141

Type of Tree: Scots Pine (Pinus Syivatica)
DBH: (Diameter at base height) : 738mm
Height: 20 metres
Spread of Tree: 7-8 metres

Tree Description:

This Scots Pine is a mature tree, which is situated between two other Scots Pine trees.
The tree is within 20 metres of Sandown and Paddock Rise.
The Scots Pine is showing signs of decay, the needles are dying and a large portion of the tree is dead.
Upon inspection of the tree, **Bore Holes** have been spotted all around the tree which suggests a type of Beetle is present.

Inspection:

The inspection was conducted using a drone to show an aerial image of the infected tree and close ups of the bore holes at various heights.
