Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I am very much in favour of the application It is important to have as many cars off this street as possible. The improvements made by the applicant have improved the appearance of this part of the village. We are in the 21st century and I understand that the applicant will have an electric car which is line with the movement for a greener future. The position of the parking area appears very discreet. We are among the many owners of a listed house in the conservation area who have off street parking and to add Chewton to our number will hardly make a significant difference to the appearance of the village

Kind regards
